DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group II, claims 2-19 and 21-34 in the reply filed on 7/18/05 is acknowledged. Upon review of the current claims, it has been found that an additional election of species requirement is necessary. Claim 1 is withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected Invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 7/18/2005.

1. Claims 2-19 and 21-34 are generic to a plurality of disclosed patentably distinct species comprising a composition comprising

- a.) A functional 2-methoxyphenol derivative of formula (1) comprising substituent groups X, Y and Z.
- b.) An aqueous medium
- c.) A colorant.

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Applicant is required to elect a specific aqueous medium, a specific colorant and a specific 2-methoxyphenol derivative. Because the 2-methoxyphenol derivatives are functional and/or reactive in nature, applicant is required to indicate a specific chemical description for each of substituents X, Y, and Z on the 2-methoxyphenol derivative of formula (1). For example, applicant could indicate that X is unsubstituted alkylene, Y is -O- and Z is $-(CH_2CH_2O)_a-(CH_2CH(CH_3)O)_b-(CH_2CH_2O)_c-H$. Applicant is advised that the term,

Art Unit: 1714

“substituted”, is indefinite, since the claims do not point out any specific substituent groups relevant to this term. However, no formal rejection is being made at this time.

3. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention. A telephone call was not made to request an oral election to the above restriction requirement.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143). Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kriellion A. Sanders whose telephone number is 571-272-1122. The examiner can normally be reached on Monday through Thursday 6:30-7:00.
